WHAT IS AIS?

Let us tell you...

The Washington County Agricultural & Industrial Society (AIS) was established in 1997 as a nonprofit 501c3 to assist in the development and enhancement of the Washington County Fair Park and its surrounding communities. On top of this, the Agricultural & Industrial Society elects a Board of Directors that oversee the daily operations of Fair Park. AIS members work closely to ensure the future of Washington County Fair Park & Conference Center. In order to maintain the organization's mission of enriching life with educational, cultural, economic and social opportunities, AIS formulates a fun, inclusive, and family orientated environment that transcends generations. Life-long relationships and bonds are fostered at the Washington County Fair Park & Conference Center. Be a part of the tradition, because it's more than just a fair park, it's a family, it's a lifestyle!

*"Enriching life with educational,
cultural, economic and social
opportunities"*
